Sunshine BB-5s

By SCOTT HOLTZMAN

It's the perfect time of year for a **Beach Boy Concert** and that's just what Houston has got Saturday. The Beach Boys sort of go with the sunshine we've been having lately.

Hope you are going because these guys always give a good show, normally performing the entire second half of a concert.

Bruce Johnson will be with them again in place of **Brian Wilson**. Guess Brian is working in that wild living room of his. He has 50,000 tons of beach sand on the floor and a grand piano in the middle of it with sun lamps all around. He was getting a giraffe for his yard but the neighbors objected. I like a guy who lives the way he wants to, no matter what anyone thinks.

In the most recent British poll, The BB-5s unseated **The Beatles** as the "Top World Act." The reason these guys have managed to maintain their position for so long a time is that they have never stopped growing musically. Each album gains them greater respect in the music world.

The nicest thing about a Beach Boy concert is that their fans listen. There's none of that screaming so that no one can hear. Hope you enjoy it.

Along with them will be **The "Kind of a Drag" Buckingham**s, **The "Then You**

Can Tell Me Goodbye" **Casinos** and Houston's **Neal Ford and the Fanatics**.

Mitch Ryder made nothing but enemies on his recent visit here. His swelled head and lack of professionalism were appalling to everyone around him. A star never gets big enough to act like Mitch did.

Johnny Michaels had his knee operated on this past week and **Steve Lundy** is still hospitalized in Tyler.

The Outsiders split their bass guitar in two during their performance on **The Larry Kane Show** recently. That's a lot of bread.

Would you believe **Eddy Arnold's** recent Houston Stock Show and Rodeo appearance is believed to have brought in the largest single day attendance figures for paid concerts by a single entertainer in the history of show business? He grossed \$160,620 for the Saturday performances, and \$257,235 for the four-show week end.

Is **Chuck Dunaway** becoming The Round Mound of Sound again? (Only his scale knows for sure).

George Carlin's "Wonderful Wino" is going great guns as a single. The Album, called "Take-Offs and Put-Ons" is going to be a smash, too. It was recorded live at **The Rooster Tail** in Detroit, Mich.

BB-5s Outranked The Beatles in Recent Poll

What program director of a local station refused to let **The Outsiders** and **The Syndicate of Sound** be interviewed on radio (as previously announced) because they appeared on **The Larry Kane Show**? That shouldn't be too hard to guess.

Get your surfboards out and hang 10½!

The **Casinos**, right, are the owners of the Number 5 record in the nation, "Then You Can Tell Me Goodbye." They will appear Saturday at the Sam Houston Music Hall with **The Beach Boys**, **The Buckingham**s and **Neal Ford and the Fanatics**.
